Team name: Younglings
Reason: Because we are young apprentices and Anakin's greatest threat.

Team Members:
- · Joshua Serna
- · Zhiwei Ruan
- · Sohan Vidiyala
- · Cooper Brown
- · Kartik Dabas

THEME
Sports have a big part in people's lives and culture. Sports are also big spectacles of human invention, with large competitions and tournaments that require detailed organization to provide a great environment for the audience and players.We will lay the groundwork for designing a database for the NBA.

Employee-
Player- a person who plays in a game representing a team.
Coach- a person who provides guidance, training, and direction for a team.
Staff- a person belonging to a team.
Referee- a person who officiated the game.
Owner- a person who owns the franchise.

Broadcasting Team- a team of people who are responsible for televising a game(weak)
Camera Operator- a person who operates camera
Commentator- a person who commentates on the game.
Production Crew- part of the broadcasting team.

NBA
Franchise- an organization competing in a league.
Sponsor- an organization that partners with a team or league.
Security- an organization providing security for a venue.

LOCATIONS
Venue- The place where the match will take place.
Training Facility- A place where a team practices

SEASONS
Regular Season- a collection of competitive games
Game- a single non playoff meeting between two teams
Playoffs- a tournament played after the regular season by the best teams
Finals- the last match played in the playoffs to determine the champion

Service
Tickets - a ticket to watch a game live.
Streaming- watch the game live via an online Streaming broadcast.
Cable- watch the game live via Cable TV broadcast.
SeasonPass- can watch both online via App or live for a specific team.

Assumption:
- Staff is anyone other than a player, or coach of a team.
- The only accepted payment methods are cash, cryptocurrency, and credit cards.
- The only way to view a game is through live at a venue, streaming, cable, or seasonPass.
- Sponsors can sponsor many teams.
- There are only three ways to pay in our mini-word: cash, crypto, credit card.
- Franchise is a single team in the NBA.
- The BroadCast Team should be a weak entity because it's a unique team created by Franchise and only televises them.
- Each team name is unique and can only belong to one team
- Medical staff and staff are not related in the franchise structure.
- Each franchise televises their own game.
- Staff can be cheerleaders, waterboys, and cleaning staff.
- Broadcasting is based on local channels for each team.
- A coach is not a staff member.
- The production crew only uses one software
- An owner is an employee as he receives financial compensation
- The production crew is not employed by the NBA or a franchise.
- Two teams can only play each other once a day
- Season tickets will only be offered by some teams but not all teams.

Entity Dictionary

Entity: Broadcast Team

- **Description:**
  - The team responsible for transmitting the game on TV.
- **Attributes**:
  - name: VarChar(80), the name of the broadcasting team
  - teamSize: Integer, the number of teams members in the team
  - Primary Key: teamName, inherits from Franchise

~~**Entity: Cable**~~

- ~~**Description:**~~
  - ~~A type of service that transmits the game live to a TV.~~
- ~~**Attributes**:~~
  - ~~Channel Name: VarChar(40), the name of the channel that the NBA game is being shown on~~
  - ~~Primary Key: TaxID, inherits from Service~~

Entity: Camera Operator

- **Description:**
  - An operator of the cameras which broadcast the game
- **Attributes**:
  - Camera_Type: VarChar(40), the camera equipment used by the operator
  - Primary Key: teamName, inherits from Franchise

Entity: Coach

- **Description:**
  - Person responsible for creating strategies and instructing players.
- **Attributes**:
  - Experience: Integer, the number of year a coach has been a coach
  - Primary Key: employeeID, inherits from Employee

Entity: Commentator

- **Description:**
  - Person responsible for providing live commentary of a game.
- **Attributes**:
  - Mic_Type: VarChar(40), the microphone equipment used by the commentator
  - Primary Key: teamName, inherits from Franchise

Entity: Company
- **Description:**
  - The company that sponsors many franchises
- **Attributes**:
  - name: VarChar(80), name of the sponsor company.
  - sponsorshipAmount: Integer, the amount of sponsorship money to a franchise
  - taxID: Integer, the tax id of the company
  - Primary Key: taxID

Entity: Employee
- **Description:**
  - The person that will be employed by a franchise or the NBA league
- **Attributes**:
  - Date_Of_Birth: Date, the date of birth of an employee
  - employeeID: Integer, the unique ID number for an employee
  - Name: Compound attribute, legal name consisting of first and last name
    - First: VarChar(40), the legal first name of an employee
    - Last: VarChar(40), the legal last name of an employee
  - Sex: VarChar(6), the gender of the employee
  - Primary Key: employeeID

Entity: Franchise
- **Description:**
  - The team competing in the NBA.
- **Attributes**:
  - Location: Compound attribute, the location of the NBA franchise consisting of a city and state
    - City: VarChar(40), the city that the NBA franchise is located in
    - State: VarChar(40), the state that the NBA franchise is located in
  - Num_Championships: Integer, the number of championships won by an NBA franchise
  - Team_Name: The unique name of the NBA franchise
  - Primary Key: Team_Name

Entity: NBA
- **Description:**

- ○ The league which comprises the franchises and by which the tournament will be played.
- ● **Attributes**:
  - ○ TaxID: Integer, the tax ID for the National Basketball Association
  - ○ Primary Key: TaxID

Entity: Owner

- ● **Description:**
  - ○ A person that owns an NBA franchise and has control over who is hired.
- ● **Attributes**:
  - ○ Ownership_years: Integer, the number of years the owner has maintained ownership of a franchise
  - ○ Primary Key: employeeID, inherits from Employee

Entity: Player

- ● **Description:**
  - ○ Person that is part of a franchise and plays in games.
- ● **Attributes**:
  - ○ Height- Integer, the height of a player in inches
  - ○ ~~Name- VarChar(80), the name of the player~~
  - ○ Rating- Integer, the rating of a player, out of 99
  - ○ Rings- Integer, the number of rings a player has
  - ○ Primary Key: employeeID, inherits from Employee

Entity: Production Crew

- ● **Description:**
  - ○ Group of people responsible for filming, editing, commentating, and broadcasting an NBA game.
- ● **Attributes**:
  - ○ Production_Software: VarChar(40), the software used by the production crew to broadcast the game
